

SSEYOTM Koan Pro

The revolutionary system for creating *Ambient* music on your PC

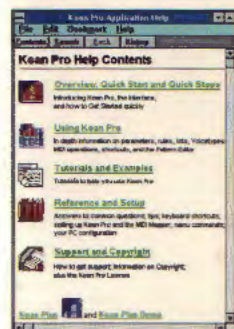

SSEYO Koan Pro Power view, where you can edit parameters and envelopes

SSEYO Koan Pro is a powerful and advanced 2 in 1 music software tool for musicians and non musicians alike. Use it to set your imagination and creativity free and realize brilliant new musical ideas. Or use it as a complete ZentertainmentTM authoring environment for creating self contained, ever changing SSEYO Koan pieces. This unique new system will allow you to surround your life with endless, beautiful music.

Pattern Editor

Use our Pattern Editor to enter/modify any patterns used by your piece. Import and Export bars from/to MIDI files and use these fragments as seed phrases/patterns used by the piece. Patterns can be randomly selected during piece playback from a defined list of patterns.

Comprehensive online help system

Special soundcard support for:

Creative Labs AWE32

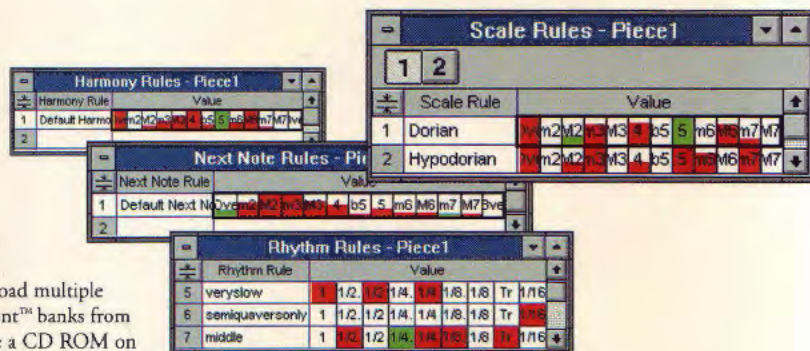

Define in your piece and auto-load multiple Creative Labs AWE32 SoundFontTM banks from any directory location (could be a CD ROM on your D: drive for instance). Controllers for all 25 EMU8000 LFO's, Oscillators and Envelopes on the AWE32.

Gravis Ultrasound/ Ultrasound MAX

Define in your piece and auto-load Gravis Technology patch banks from another directory location (could be a CD ROM on your D: drive for instance).

Roland SCC1

Controllers for Attack/Decay/Release.

Rules view

Ambient! Techno! Chillout!

Music Creativity software tool

- Use it to generate fresh new music ideas
- Ideal for making amazing music in the Ambient genre (including techno)
- Create copyright free content for Multimedia Applications
- Import MIDI phrases to be used in the piece/save the output to a MIDI file
- Perfect complement to any Windows sequencer program
- For both musicians and non-musicians, no music keyboard required

Complete ZentertainmentTM System

- Create ever-changing, beautiful and soothing atmospheric music
- Derive great satisfaction and fulfilment from creating your own works
- Design self contained pieces to play for up to 9 hours
- Produce music that is full of subtle changes and variety
- Use real sounds to provide a 'context' for the piece

System requirements:
