CompuServe®

CompuServe is the information service world-renowned for its computer support and electronic camaraderie.

Now you can ask questions, share ideas and get important information about SSEYO® products via CompuServe, the world's premier online information service.

To access the SSEYO Section of the Multimedia A Vendor Forum, click on the GO button and enter SSEYO. There you'll gain valuable information on all our products, as well as late-breaking news on soon-to-be and newly released product. You'll also get direct connections to our technical support team and easy access to the most current updates.

Interested in upgrades? Don't miss out on important news about product enhancements, as well as details on ordering upgrades.

CompuServe puts the world at your fingertips.

Of course there's always more to choose from on the information service you won't outgrow. And CompuServe is always ready. Around the clock and around the world. CompuServe offers more local access connections than any other service, including 28.8 BPS connections in most major cities.

Interconnect to the Internet and electronic mail systems, fax machines and postal mailing addresses everywhere. Shop a mall that never closes. Search exhaustive reference libraries in minutes. Find the best fares and book your trips with the same systems used by travel agents worldwide.

You get:

- One free month of Membership (a \$9.95 value)
- An additional 5 hours free in your first month
- CompuServe Information Manager (CIM) software (for Windows or Mac)
- A complementary subscription to CompuServe's monthly magazine
- A personal User ID number and private electronic mailbox
- Access to popular internet services

So get online today and GO SSEYO
